

DESIGNED AND ENGINEERED TO PERFORM

OIL & GAS

PROVIDING YOU THE MOST SUSTAINABLE
SOLUTION FOR YOUR FOUNDATION PROBLEMS

THE HELICAL ADVANTAGE

IMMEDIATE LOAD BEARING CAPACITY:

Helical piles offer immediate load-bearing capacity upon installation, allowing for rapid construction and installation of oil and gas infrastructure without waiting for concrete to cure.

VERSATILITY:

Helical piles can be installed quickly and efficiently in a variety of soil conditions, including soft, wet, or environmentally sensitive areas. This versatility makes them ideal for oil and gas projects located in diverse environments.

MANAGEABLE TRANSPORT:

When it comes to bearing structural loads, a single helical pile can substitute for tens of thousands of pounds of concrete foundation. This is crucial because each pound transported to your site entails additional expenses. Helical piles, being inherently lightweight compared to concrete, significantly mitigate transport costs and simplify handling.

LESS EQUIPMENT:

Helical piles offer a streamlined alternative, requiring only a small crew for installation and easily maneuvering into tight spaces around delicate infrastructure.

APPLICATIONS

While the applications are numerous and diverse, certain projects particularly gain significant advantages from utilizing a helical pile foundation. Although these examples don't encompass all potential uses of helical piles in the oil and gas realm, they offer insight into the technology's versatility.

- STEEL FRAME BUILDINGS

For over a decade, Earth Contact Products (ECP) has grown to the most trusted name for foundation steel products. As patent and trademark holders on over 18 items, we supply the very best products, service and support to our national network of contractors. ECP is dedicated to our contractors and the people that they serve, by providing the highest quality foundation products in the industry and standing behind them with a full manufacturer's warranty.

WE ARE THE COMPLETE PARTNER FOR YOU

- Manufacturer Direct
- Engineering Support
- Training and Education
- Comprehensive Product Range
- Customized Solutions
- Marketing Support
